Introduction

The 2030 Agenda for Sustainable Development is unprecedented in its scope and ambition. The UN and governments have neither the reach nor the resources to implement it alone. Engagement, especially with the private sector, is imperative for the 2030 Agenda to succeed.

The private sector with its unparalleled reach has the capacity to be a key driver to achieve the objectives of the 2030 Agenda and in some cases is already performing this role. The UN and its member states must seize the opportunity of forming strategic partnerships with private sector entities and advocating for businesses to embrace sustainable development in order to achieve the 2030 Agenda.

Moreover, the 2030 Agenda offers the private sector numerous opportunities to access new markets and institutional investment, estimated at about \$12 trillion by 2030 while adding 380 million new jobs. This in itself is a compelling argument for the private sector and governments to work together to make the 2030 Agenda a reality.
